1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name: URETHANE REDUCER MEDIUM
Product code: 172.G00
Print Date: 01/Aug/2011
Revision Date: 03/Jun/2011
Recommended use: A coating for mirror backing

210 CROSBY
PICAYUNE, MS 39466

Manufacturer's Phone: 1-601-798-4731

2. HAZARDS IDENTIFICATION

REGULATION (EC) No 1272/2008

<table>
<thead>
<tr>
<th>Hazard</th>
<th>Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acute dermal toxicity</td>
<td>Category 4</td>
</tr>
<tr>
<td>Acute inhalation toxicity - vapor</td>
<td>Category 4</td>
</tr>
<tr>
<td>Acute inhalation toxicity - dust/mist</td>
<td>Category 4</td>
</tr>
<tr>
<td>Skin corrosion/irritation</td>
<td>Category 2</td>
</tr>
<tr>
<td>Serious eye damage/eye irritation</td>
<td>Category 2</td>
</tr>
<tr>
<td>Specific target organ toxicity - single exposure</td>

<td>Category 3</td>
</tr>
</tbody>
</table>

Label Elements

contains: XYLENE, ETHYLBENZENE, TOLUENE
Signal word: Warning

Hazard statements
H312 - Harmful in contact with skin
H315 - Causes skin irritation
H319 - Causes serious eye irritation
H332 - Harmful if inhaled
H336 - May cause drowsiness and dizziness.
H226 - Flammable liquid and vapour

Precautionary obligatory statements
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P233 - Keep container tightly closed
P241 - Use explosion-proof electrical/ventilating/lighting/equipment
P403 + P235 - Store in a well-ventilated place. Keep cool
P242 - Use only non-sparking tools
P243 - Take precautionary measures against static discharge
P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking

Precautionary additional statements
P322 - Specific measures (see .? on this label)
P363 - Wash contaminated clothing before reuse
P302+ P352 - IF ON SKIN: Wash with plenty of soap and water
P321 - Specific treatment (see supplemental first aid instructions on this label)
P332 + P313 - If skin irritation occurs: Get medical advice/attention.
P362 - Take off contaminated clothing and wash before reuse
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention.
P261 - Avoid breathing dust/fume/gas/mist/vapours/spray.
P271 - Use only outdoors or in a well-ventilated area
P304 + P340 - IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.
P312 - Call a POISON CENTRE/doctor/physician if you feel unwell
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up
P501 - Dispose of contents/container to an approved waste disposal plant

Product code: 172.G00
Page 2 / 7
4. FIRST AID MEASURES

General
If symptoms persist, call a physician. Never give anything by mouth to an unconscious person.

Inhalation:
Move to fresh air. If victim is unconscious but breathing: Victim to lie down in the recovery position, cover and keep him warm. If not breathing, give artificial respiration. Obtain medical attention.

Skin:
Take off all contaminated clothing immediately. Wash off immediately with soap and plenty of water. Do NOT use solvents or thinners.

Eyes:
Remove contact lenses. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Keep eye wide open while rinsing.

Ingestion:
Keep at rest. If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting.

5. FIRE-FIGHTING MEASURES

The following actions are recommended
Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire will produce dense black smoke containing hazardous combustion products (see heading 10). Wear self contained breathing apparatus for fire fighting if necessary. Cool containers / tanks with water spray.

Suitable extinguishing media
Suitable extinguishing media
Alcohol-resistant foam
Carbon dioxide (CO2)
Dry powder
Extinguishing media which must not be used for safety reasons
High volume water jet

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:
Exclude non essential personnel. Remove all sources of ignition. Ensure adequate ventilation. Do not breathe vapours/dust.

Environmental precautions:
Local authorities should be advised if significant spillages cannot be contained.

Methods for cleaning up:
Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Clean with detergents. Avoid solvents.

7. HANDLING AND STORAGE

Handling:
Operators should wear anti-static footwear and clothing. Use only non-sparking tools. Good housekeeping standards and regular safe removal of waste materials will minimise the risks of spontaneous combustion and other fire hazards. Vapours are heavier than air and may spread along floors. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. Provide adequate ventilation. The product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard. Preparation may charge electrostatically: always use earthing leads when transferring from one container to another. Keep container tightly closed. Keep away from open flames, hot surfaces and sources of ignition. Avoid contact with skin and eyes. Do not breathe vapours or spray mist. When using, do not eat, drink or smoke. Do not use pressure to empty drums. Store in original container.

Storage:
Containers which are opened must be carefully resealed and kept upright to prevent leakage. Take notice of the directions of use on the label. Keep in a dry, cool and well-ventilated place. Keep away from heat and sources of ignition. Keep away from direct sunlight. Store in a place accessible by authorized persons only. Do not smoke.

Storage temperature: 10 - 30 C
8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits:

China

Engineering measures:
During curing, decomposition products may be formed, which should be extracted safely from the work area. Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

Basic Personal Protection

Respiration
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Hand protection:
Wear suitable gloves and eye/face protection. Use protective skin cream before handling the product.

Skin:
Wear as appropriate: Flame retardant antistatic protective clothing Wear shoes with conductive soles.

Eyes:
Wear as appropriate: Safety glasses with side-shields Goggles

Hygiene measures:
Do not use solvents or thinners to clean skin. When using, do not eat, drink or smoke. Wash hands before breaks and at the end of workday. It is good practice in industrial hygiene to avoid contact with solvents by using appropriate protective measures whenever possible.

The OES for nuisance dust is 10 mg/m³ (total dust), 4 mg/m³ (respirable dust). Check local regulations in case different limits apply.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: liquid
Specific Gravity: .9
Boiling point/range: 126°C
Flash point: 28°C c.c.
Sustains combustion: yes
10. STABILITY AND REACTIVITY

Stability:
Stable under normal conditions.

Conditions to avoid:
Stable under recommended storage conditions.

Materials to avoid:
Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

Hazardous decomposition products:
Hazardous decomposition products may be produced when the recommended processing temperatures or times are exceeded. Carbon monoxide, Carbon dioxide (CO2), Smoke, nitrogen oxides (NOx).

</tbody>
</table>

**General**
No data is available on the product itself.

**Skin**
Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and absorption through the skin. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons.

**Inhalation**
Exposure to vapour concentrations in excess of the stated occupational exposure limit may result in adverse health effect, such as mucous membrane and respiratory system irritation and adverse effect on kidney, liver and central nervous system. Inhalation of high vapour concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting.

**Ingestion**
not determined

**Eyes**
The liquid splashed in the eyes may cause irritation and reversible damage.

15. REGULATORY INFORMATION

16. OTHER INFORMATION

Full text of H-Statements referred to under sections 2 and 3
H225 - Highly flammable liquid and vapour
H332 - Harmful if inhaled
H315 - Causes skin irritation
H361d - Suspected of damaging the unborn child
H373 - May cause damage to organs (a,b,c) through prolonged or repeated exposure if inhaled
H336 - May cause drowsiness or dizziness
H304 - May be fatal if swallowed and enters airways
H226 - Flammable liquid and vapour
H312 - Harmful in contact with skin
H360D - May damage the unborn child
H335 - May cause respiratory irritation
EUH066 - Repeated exposure may cause skin dryness or cracking
